

CA/LINE/EC

Extractores circulares en línea para conductos con motor EC Technology

CA/LINE/EC-10...25

Ventilador:

- Envoltente en chapa de acero.
- Caja de bornes externa.
- Instalación rápida y sencilla.
- Pie soporte incluido.
- Turbina a reacción.

- Monofásico 220-240 V 50/60 Hz.
- Temperatura de trabajo: -25 °C +60 °C.
- Velocidad ajustable mediante señal 0-10 V.
- Modbus RTU y relé de alarma incorporados (modelos 35 y 40).

Motor:

- Motores EC Technology de alta eficiencia, rotor exterior y regulables mediante 0-10 V.
- Motor con rodamientos a bolas de larga duración. Protección IP44.

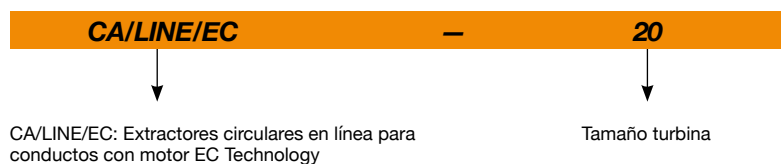

Acabado:

- Anticorrosivo en resina de poliéster polimerizada a 190 °C, previo desengrase con tratamiento nanotecnológico libre de fosfatos.

CA/LINE/EC-31...40

Características técnicas

| Modelo | Velocidad (r/min) | Intensidad máxima admisible (A) | Potencia instalada | Caudal máximo | Nivel presión sonora ¹ dB (A) | Peso aprox. (Kg) |
|---------------|----------------------|---------------------------------|--------------------|---------------------|---|---------------------|
| | | 230V | (W) | (m ³ /h) | Irradiado | |
| CA/LINE/EC-10 | 3600 | 0,70 | 90 | 325 | 44 | 3 |
| CA/LINE/EC-12 | 3400 | 0,58 | 83 | 420 | 45 | 3 |
| CA/LINE/EC-15 | 3060 | 0,89 | 107 | 745 | 48 | 5 |
| CA/LINE/EC-16 | 3030 | 0,90 | 108 | 810 | 48 | 5 |
| CA/LINE/EC-20 | 2400 | 0,74 | 100 | 1045 | 48 | 5 |
| CA/LINE/EC-25 | 2900 | 1,15 | 164 | 1290 | 46 | 5 |
| CA/LINE/EC-31 | 2780 | 1,44 | 183 | 1915 | 49 | 9 |
| CA/LINE/EC-35 | 2770 | 3,07 | 693 | 3660 | 62 | 16 |
| CA/LINE/EC-40 | 2200 | 3,13 | 704 | 4720 | 67 | 19 |

1. Los valores de los niveles sonoros, son presiones en dB(A) medidos a 3 metros, en campo libre.
